

# IMMUNE 2 INFODEMIC

## Co-production Workshop - 2: Tools to immunise citizens against mis- and disinformation

When : **22 Sep 2023**  
Where : **Press Club, Rue Froissart 95, 1040 Brussels, Belgium**  
Registration: [Link](#) (Registration is free but mandatory.)

European citizens are all exposed to an **infodemic** spreading increasingly which can severely impact their democratic participation and engagement. This may include **disinformation, misinformation, fake news**, and **other types of interference** on different issues related to public life. A pre-emptive approach needs to be taken to decrease the worsening impact, such as using vaccination against the spread of the pandemic.

IMMUNE 2 INFODEMIC **aims** to immunise **EU citizens/residents** against disinformation and misinformation on selected themes by empowering and equipping them with several easy-to-use tools. The project consortium formulates and co-produces 3 **instruments (vaccines)**: digital literacy, media literacy, and critical thinking; and applies these instruments to 3 selected hot **themes (boosters)**: elections, COVID-19 and migration.

The **workshop** aims to **evaluate the produced materials** (videos, infographics, presentations) that will be used in **events, workshops and e-learning settings** against dis/misinformation.

We would like to involve the **experts** (educators, researchers, practitioners, media and communication experts) and **target group** in the product design by bringing them together in an interactive workshop.
